Using this application you can easily transform nearly any image file to a small representation of the original. Features: - Applies to... Thumbs Up is a simple but very nice application. If you have a large music library that you are keeping track of, this app is for you. Here is how it works: It is an easy to use application that allows you to search your music collection by any kind of criteria. The basic function of this application is to tell you how much time is left until your next event. You are then given a list of all songs you have in your music library. If you have a collection of songs that can get a little messy when laid out in lists, Thumbs Up allows you to customize the look of the lists in the app. You have the ability to toggle any or all items on or off to customize how it looks. Like many others of it's kind, this application also includes a couple of features to help you manage your music collection. You can use the built in playlists to group your music together. The new, updated player is great, and a great addition to the application. The last and perhaps the best feature that Thumbs Up offers is an event planning feature that allows you to create a custom event planner that allows you to add dates and times to specific events. You can then specify a start time and end time for a event. This feature is very useful, as it can help you plan your activities for the entire year. A very nice app that is highly recommended to anyone with a collection of music. This is a simple, but well done application. I give it 5 out of 5. Playing a musical instrument has always been a challenging task. In this article, we will discuss about three useful apps to help you practice playing the guitar. 1. Guitar Hero: There are many guitar players among us. And, not many are professionals, but you can follow the steps provided in the application to develop your playing skill. Guitar Hero is a free application that offers you various guitar tutorials. It is compatible with Android 4.0.3 and later version. It allows you to play in five different difficulty levels. In the default, you are asked to play along with the music. However, if you want to play guitar solo, you can do that too. 2. Guitar Pro: If you are a professional guitar player, this is the best application for you. This is the latest version of
